Office Action Summary	Application No. 10/020,421	Applicant(s) MEARS ET AL.	
	Examiner Jean W. Désir	Art Unit 2614	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Karam (US 5,548,832) in view of the Background of the Invention of the instant application.

Claim 1:

The Karam's system discloses:

"a power indicator illumination", see Fig. 1 items 36, 34, col. 4 lines 1-5;

"a user interface including an option for allowing a user to selectively illuminate the power indicator illumination when the video apparatus is powered on", see col. 5 lines 4-7;

the difference between the claimed invention and Karam's system is that Karam does not explicitly say the system is for indicating the status of a video apparatus, as claimed. However, the Background of the Invention of the instant application describes a system that indicates the status of a video apparatus, for instance when the lamp does not work (see Background of the Invention page 1 lines 20-22); an artisan would be motivated to combine the references to arrive at the claimed invention, this

Art Unit: 2614

combination would provide a system that would indicate information regarding the operating status of the apparatus, for instance when the lamp does not work. Therefore, the claimed invention would have been obvious to a person of ordinary skill in the art at the time the invention was made.

Claim 2 is disclosed, see Background of the Invention page 1 lines 13-22.

Claim 3 is disclosed, see Background of the Invention page 1 lines 20-22, Karam at col. 1 line 24.

Claim 4 is disclosed, see Karam at col. 3 lines 57-59.

Claim 5 is disclosed, see Karam at col. 3 lines 43-59.

Claims 6, 7 are disclosed, see Background of the Invention page 1 lines 20-22.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 8, 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Karam (US 5,548,832).

Claim 8:

The Karam's system discloses:

“illuminating the power indicator illumination of the apparatus when the apparatus is powered on”, see col. 5 lines 4-7;

Art Unit: 2614

“providing a user interface for allowing a user to selectively turn the power indicator illumination off, even when the apparatus is powered on” see col. 5 lines 41-45.

Claim 9 is disclosed, see col. 6 lines 1-6.

Response to Arguments

5. Applicant's arguments have been fully considered and are persuasive. The rejection has been withdrawn. A new rejection is proposed to the Applicants.
